

PREMIUM ANIMAL BEDDING

Designed for performance, hygiene and comfort.

- Low dust to support respiratory health
- Highly absorbent to keep bedding drier for longer
- Steam processed for improved hygiene
- Soft and uniform texture for enhanced comfort
- Easy to use, store and muck out
- 100% natural, biodegradable and compostable

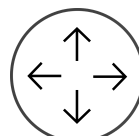

LOW DUST

HIGH ABSORBENCY

RESPIRATORY HEALTH

HIGH COVERAGE

100% NATURAL FIBRE

Made from 100% natural wheaten straw, steam processed, triple sieved and dust extracted to deliver a hygienic, low-dust and highly absorbent bedding that provides exceptional comfort and performance.

Steam processed to significantly reduce dust, mould spores, and naturally occurring bacteria, our Premium Animal Bedding is an ideal choice for animals with respiratory sensitivities or allergies.

Finely chopped fibres enhance comfort and absorbency while providing excellent coverage. Fully biodegradable and eco-friendly, our Premium Animal Bedding breaks down quickly after use, making excellent garden compost.

Suitable For

All animals including horses, ponies, cattle, alpacas, pigs, sheep, goats, poultry, rabbits and guinea pigs.

Usage Guidelines

- One 15kg bale covers approximately 2.5–3.0m² at a depth of 50mm.
- For an average 3.6m x 3.6m horse stall, start with 5 bales to establish a suitable base layer.
- Remove wet and soiled bedding daily to maintain optimal hygiene and comfort and top up with fresh bedding as required.
- For best results, carry out a full bedding replacement every 2–3 months.

Product Specifications

- Weight: 15kg
- Compressed bale size: 750mm x 340mm x 300mm
- Bales per pallet: 17, 22 or 35
