

# PREMIUM ANIMAL BEDDING

Designed for performance, hygiene and comfort.

- Low dust to support respiratory health
- Highly absorbent to keep bedding drier for longer
- Steam processed for improved hygiene
- Soft texture and short chop length for enhanced comfort
- Lightweight, easy to use and muck out
- Compact packaging, ideal for transport and storage
- 100% natural, biodegradable and compostable

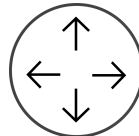

LOW DUST

HIGH ABSORBENCY

RESPIRATORY HEALTH

HIGH COVERAGE

100% NATURAL FIBRE

Made from 100% natural wheaten straw, our Premium Animal Bedding is steam processed and dust extracted to deliver a hygienic, low-dust, highly absorbent bedding with exceptional comfort and performance.

Steam processed to reduce dust, mould spores, and bacteria, supporting a cleaner and healthier living environment—ideal for animals with respiratory sensitivities or allergies.

Finely chopped for softness and superior absorbency our Premium Animal Bedding is easy to use and provides large coverage. Fully biodegradable, it breaks down quickly after use, making excellent garden compost.

## Suitable For

All animals including: horses, ponies, cattle, pigs, sheep, goats, poultry, rabbits and guinea pigs.

## Usage Guidelines

- For an average 3.6m x 3.6m horse stall start with 5 bales to establish a suitable base layer.
- Remove wet and soiled bedding daily to maintain optimal hygiene and comfort and top up with fresh bedding as required.
- For best results carry out a full bedding replacement every 2 to 3 months.
- Composts in approximately 6 to 8 weeks.

## Product Specifications

- Chopped straw length 1 to 7cm approximately
- Package weight: 15kg
- Compressed bale size: 750mm x 340mm x 300mm
- Bales per pallet: 17, 22 or 35
